

Our Panel of GPCRs Assays for Lipid mediators

Lipid mediators (eg: arachidonic acid, leukotrienes, lysophosphatidic acid, endocannabinoids) are involved in a wide range of pathophysiological processes and their dysregulation have been linked to various serious diseases.

GPCRs involved in lipid mediator signaling are therefore important targets for pharmacological intervention. **We offer services** based on our well recognized expertise on GPCRs and our comprehensive platforms of **cell lines** and **services (HTS, compound profiling)**.

(release July 2017)

Receptors	Gene ID	Gene Name
BLT1	1241	LTB4R
FFA1	2864	FFAR1
FPR2/ALX	2358	FPR2
CB1	1268	CNR1
CB2	1269	CNR2
